SUMMARY

**Marshall County Commission
October 1, 2007 through September 30, 2008**

The Marshall County Commission (the “Commission”) is a five-member body elected by the citizens of Marshall County. The members and administrative personnel in charge of governance of the Commission are listed on Exhibit 15. The Commission is the governmental agency that provides general administration, public safety, construction and maintenance of county roads and bridges, sanitation services, health and welfare services and educational services to the citizens of Marshall County.

This report presents the results of an audit the objectives of which were to determine whether the financial statements present fairly the financial position and results of financial operations and whether the Commission complied with applicable laws and regulations, including those applicable to its major federal financial assistance programs. The audit was conducted in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States as well as the requirements of the Department of Examiners of Public Accounts under the authority of the *Code of Alabama 1975*, Section 41-5-14.

An unqualified opinion was issued on the financial statements, which means that the Commission’s financial statements present fairly, in all material respects, its financial position and the results of its operations for the fiscal year ended September 30, 2008.

An instance of noncompliance relative to federal financial assistance programs was found (Exhibit 16) and it is summarized below.

- ◆ 2008-1 relates to meals that were purchased for advisory council meetings and other purposes from the Retired and Senior Volunteer Program.

The following officials/employees were invited to an exit conference to discuss the contents of this report: Nancy R. Wilson, County Administrator and Commissioners: Doug Fleming, William Strickland, III, R. E. Martin, Buddy Allen and Tim Bollinger. The following individuals attended the exit conference, held at the Commission's office: Nancy R. Wilson, County Administrator and Commissioners: Doug Fleming, William Strickland, III, James Maze, Richard Kilgore and Tim Bollinger. Also in attendance at the exit conference was a representative from the Examiners of Public Accounts: Larry S. McPherson, Audit Manager. The results of the audit were discussed with Commissioners Buddy Allen and R. E. Martin via the telephone.

Independent Auditor's Report

Independent Auditor's Report

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Marshall County Commission, as of and for the year ended September 30, 2008, which collectively comprise the basic financial statements of the Marshall County Commission as listed in the table of contents as Exhibits 1 through 8. These financial statements are the responsibility of the Marshall County Commission's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Marshall County Commission, as of September 30, 2008, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 5, 2009 on our consideration of the Marshall County Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying Management's Discussion and Analysis (MD&A), the Schedules of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual and the Schedule of Funding Progress (Exhibits 9 through 13) are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Marshall County Commission's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards (Exhibit 14) as required by U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis
(Required Supplementary Information)

MANAGEMENT'S DISCUSSION AND ANALYSIS

Marshall County Commission's discussion and analysis of its financial statements for the fiscal year ending September 30, 2008 is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Commission's financial activities, (c) identify any material deviations from the financial plan (the approved budget), and (d) identify financial issues and concerns.

The reader should be able to identify the changes in the Commission's financial position and analyze the ability of the Commission to meet future needs.

Marshall County Commission encourage readers to read and evaluate this information in conjunction with all sections of this report, which includes government-wide statements, fund statements, Notes to the Financial Statements and the Required Supplemental Information that is provided in addition to this discussion and analysis.

Financial Highlights

The Commission's Net Assets and Changes in Net Assets are presented in a condensed version in Tables I & II.

- The Commission's net assets are \$20,614,669.97 representing an increase from fiscal year 2007 of \$1,225,195.19.
- The Commission's program revenues for governmental programs (excluding transfers) were \$8,895,754.40, an increase of \$980,305.23 from fiscal year 2007.
- Total expenses for the Commission were \$21,076,383.32 for governmental activities representing an increase \$1,223,871.49 from fiscal year 2007.
- Under the guidelines of GASB 34, accumulated depreciation was \$12,930,980.05.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Commission's basic financial statements that are composed of: government-wide financial statements, fund financial statements and notes to the basic financial statements. This report also contains required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements:

- The government-wide financial statements are designed to provide readers with a broad overview of the Commission's finances in a manner similar to a private-sector business.
- The statement of net assets presents information on all of the Commission's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Commission is improving or deteriorating.

- The statement of activities presents information showing how the Commission's net assets changed during the most recent fiscal year. The statement includes the financial activities of the primary government, except for fiduciary activities. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenue and expenses are reported in the statement for some items that will only result in cash flows in future periods (e.g., uncollected taxes and earned but unused vacation and sick leave).
- To assess the overall condition of the Commission, additional non-financial factors must be considered such as changes in the Commission's property tax base and the condition of the Commission's infrastructure, building and other facilities.
- The government-wide financial statements distinguish functions of the Commission that are principally supported by taxes and intergovernmental revenue (government activities).
- In the government-wide financial statements the Commission's services are shown in the category of governmental activities. Most of the Commission's services are general government, public safety, highways & roads, sanitation, health, welfare, culture & recreation, education, interest & fiscal charges, and intergovernmental.

Fund Financial Statements

Major governmental funds are the focus in the fund financial statements instead of the Commission as a whole. The Commission establishes many funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, bond covenant, and other money.

- Governmental funds – Most of the Commission's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Commission's programs. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide reconciliation's to the government-wide financial statements.
- Fiduciary funds – The Commission is the trustee, or fiduciary, and responsible for assets of various agency funds that can be used only for the fiduciary beneficiaries. The Commission is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the Commission's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of changes in fiduciary net assets. They are excluded from the Commission's government-wide financial statements because the County cannot use their assets to finance its operations.

Financial Analysis of the Commission

The total net assets of the Commission for fiscal year 2008 were \$20,614,669.97 and \$19,389,474.78 for fiscal year 2007 representing an increase in net assets of \$1,225,195.19. Net assets of the Commission are summarized and analyzed below:

NET ASSETS September 30, 2008

	2008	2007
Current and other assets	\$ 19,613,624.95	\$ 19,197,329.92
Capital Assets	18,267,845.88	18,228,313.65
Total Assets	\$ 37,881,470.83	\$ 37,425,643.57
Long-term debt outstanding	7,238,695.46	7,464,584.62
Other Liabilities	10,028,105.40	10,571,584.17
Total Liabilities	\$ 17,266,800.86	\$ 18,036,168.79
Net Assets		
Invested in capital assets		
Net of related debt	11,434,118.33	11,112,621.11
Restricted	2,129,457.45	1,133,620.27
Unrestricted	7,051,094.19	7,143,233.40
Total Net Assets	\$ 20,614,669.97	\$ 19,389,474.78

As noted earlier, net assets may serve over time as a useful indicator of the Commission's financial position. Assets exceeded liabilities by \$20,614,669.97 as of September 30, 2008. This was an increase of \$1,225,195.19 from fiscal year 2007. The increase in net assets can be attributed to an increase in program and general revenues.

The largest portion of the Commission's net assets, \$11,434,118.33 or 55.47%, is reflected in its investment in capital assets (e.g., land, buildings, infrastructure, machinery and equipment, etc.), net of related outstanding debt used to acquire those assets. The Commission uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Commission's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the debt.

The second largest portion of the Commission's net assets, \$7,051,094.19 or 34.2%, is unrestricted and may be used to meet the Commission's ongoing obligations to citizens and creditors.

The remaining portion of the Commission's net assets, \$2,129,457.45 or 10.34%, represents resources that are subject to external restrictions on how they may be used.

Net Assets – End of Year	20,614,669.97	19,389,474.78

The Commission's total revenue for fiscal year 2008 was \$22,301,578.51 with approximately 35% from ad valorem taxes, 2% from county gasoline tax, 15% from miscellaneous taxes, 10% from charges for services, and 6% from interest earned/miscellaneous. Approximately 30% of the total revenue is represented by grants and contributions.

The total expenditures for the fiscal year 2008, excluding transfers, was \$21,076,383.32. Expenditures by functions are as follows: General Government 29%, Public Safety 32%, Highways and Roads 28%, Welfare 6% and Sanitation, Health, Culture and Recreation, Education, Interest & Fiscal Charges and Intergovernmental 5%.

The Commission was able to fully fund all fiscal year 2008 costs and increase total net assets by \$1,225,195.19.

Governmental Activities

	<u>Total Cost of Services</u>	<u>Net Cost of Services</u>
General Government	5,970,599.49	2,623,500.97
Public Safety	6,800,200.94	5,788,764.08
Highway and Roads	5,962,516.29	2,559,670.36
Other Programs	2,343,066.60	1,208,693.51
Total	21,076,383.32	12,180,628.92

The governmental activities table provides the reader the Commission’s net cost by function of its programs. Net cost represents the total expenditures less any fees generated by the activities and less intergovernmental revenues and shows the financial burden that was placed on the County’s taxpayers by each of the functions.

Significant Changes in Individual Major Fund Balances

The following table provides a summary of the changes in fund balances of the Commission’s major funds.

	<u>Beginning Fund Balance</u>	<u>Net Increase (Decrease)</u>	<u>Ending Fund Balance</u>
General	1,500,804.83	451,341.97	1,952,146.80
Public Building Road and Bridge	1,746,241.00	(1,894.05)	1,744,346.95
Courthouse & Jail	2,517,192.48	24,903.09	2,542,095.57

The Commission uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the Commission’s governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Commission’s financing requirement. In particular, unreserved fund balance may serve as a useful measure of the Commission’s net resources available for spending at the end of the year.

General Fund – the chief operating fund of the Commission. At the end of the fiscal year the fund balance increased by \$451,341.97. This fund balance includes a reservation for health insurance for retirees.

Public Building, Roads and Bridges Fund – fund balance decreased by \$1,894.05.

Reappraisal Fund – This fund is used to account for the expenditures of special county property taxes for the costs related to the property reappraisal program.

Courthouse & Jail Fund – fund balance increased by \$24,903.09 unreserved for emergency needs.

Budgetary Highlights of Major Funds

The statutory basis for county budgeting is the County Financial Control Act of 1935 as amended by Act Number 2007-488, Acts of Alabaman. According to the terms of the law, county officials receiving public funds and/or issuing orders for payment out of the county treasury must submit and estimate of revenues and expenditures for the next fiscal year. The Commission must adopt its annual budget no later than October 1 of each year. The budgeted expenditures may not legally exceed budgeted revenues for the budget year.

The budget is divided into two parts – an operating and a capital budget. The operating budget focuses on providing services, paying personnel, travel and equipment. The capital budget addresses major equipment, capital improvements and public works projects.

Throughout the year, the Commission and management will compare the original adopted budget to actual results of operations. A determination is then made of what, if any, amendments need to be made to the original budget to reflect changes in funding needs. Any changes must be within the revenues and reserves estimated to be available. There were no significant budgetary variations.

Capital Assets and Debt Administration

Capital Assets

GASB 34 required the Commission to report new infrastructure assets beginning with fiscal year 2003. The Commission adopted thresholds for items in its list of capital assets. Depreciation of all assets is recorded on an annual basis, with the exception of land and improvements, construction in progress and infrastructure in progress. Depreciation is calculated using the straight-line method.

The following table provides a reconciliation of capital assets for the year ended September 30, 2008.

CAPITAL ASSETS

Land	1,014,885.99
Infrastructure	8,345,887.31
Buildings & Improvements	12,332,760.55
Motor Vehicles, Furniture & Equipment	8,897,052.86
Assets Under Capital Leases	608,239.22
Less: Accumulated Depreciation	<u>(12,930,980.05)</u>
Total Capital Assets, net of depreciation	18,267,845.88

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.

Long Term Obligations

As of September 30, 2008 the outstanding balance of the County's general obligation warrants was \$6,365,000.00, a decrease of \$320,000.00 from fiscal year 2007.

In 2003 the Commission issued general obligation warrants/USDA loan in the amount of \$345,000.00 for the purchase of a building to provide a public daycare center. A lease agreement was entered into between the Commission and the Childcare Resource Network, Inc. for rental payments on the building.

LONG TERM DEBT

Notes Payable	76,423.48
Capital Lease Contracts	392,304.07
Warrants Payable	6,365,000.00
Estimated Liability for Compensated Absences	404,967.91
Total long term debt	7,238,695.46

ECONOMIC FACTORS AND CONDITIONS

- Property tax revenue is a major resource component for the Commission. Marshall County will be conducting a full reappraisal each year resulting in an increase in property values and thereby in ad valorem taxes.
- The cost of fuel and petroleum based products such as asphalt increased dramatically for a few months during fiscal year 2009.
- During 2008, personal bankruptcies in Marshall County were 5.39 per 1,000 population compared to 3.53 nationwide and 6.23 statewide.
- Total employment growth was -1.0% during 2008. Only 5 other Alabama counties had more employment growth than Marshall County.
- The Base Realignment and Closure (BRAC) will cause approximately 5,000 new jobs to be transferred from other US military bases to Huntsville, Alabama’s Redstone Arsenal. An additional 5,000 support jobs will also be transferred. Most of these are expected to transfer during 2009 to 2011. The average salary of those transferring to Huntsville’s Redstone Arsenal will be in the \$100,000 per year range. During 2009, Marshall County, as one of the primary commuter areas for employees working at Redstone Arsenal, expects to begin feeling the impact of BRAC on its population, employment, retail sales, taxes and other economic indicators.

CONTACTING THE COUNTY’S FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the Commission’s finances and to demonstrate the Commission’s accountability for the money it receives. Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2008

Net Change in Fund Balances - Total Governmental Funds (Exhibit 5) \$ 881,864.32

Amounts reported for governmental activities in the Statement of Activities (Exhibit 2) are different because:

Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

Capital Outlay Expenditures	\$ 1,504,303.72	
Depreciation Expense	<u>(1,368,011.41)</u>	
Total		136,292.31

Repayment of warrants, notes payable, and capital leases is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and does not effect the Statement of Activities. 503,828.63

Some items reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These items consist of:

Net Increase in Compensated Absences	(65,185.06)	
Net Decrease in Accrued Interest Payable	<u>87,018.71</u>	
Total		21,833.65

Governmental funds report the proceeds of entering into a capital lease as an increase in financial resources. However, issuing debt increase liabilities in the Statement of Net Assets and does not affect the Statement of Activities.

Capital Leases	(221,863.64)
----------------	--------------

In the Statement of Activities, only the gain on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the changes in net assets differs from the change in fund balance by the cost of the capital assets sold. (96,760.08)

For the Year Ended September 30, 2008

Note 1 – Summary of Significant Accounting Policies

The financial statements of the Marshall County Commission (the “Commission”) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

A. Reporting Entity

The Commission is a general purpose local government governed by separately elected commissioners. The accompanying financial statements present the activities of the Marshall County Commission (the primary government).

Generally accepted accounting principles (GAAP) require that the financial statements present the Commission (the primary government) and its component units. Component units generally are legally separate entities for which a primary government is financially accountable. Financial accountability ordinarily involves meeting the following criteria: 1) the primary government appoints a voting majority of the organization's governing body and the primary government is able to impose its will upon the potential component unit, or there is a possibility that the potential component unit may provide specific financial benefits or impose specific financial burdens on the primary government or 2) the potential component unit is fiscally dependent on the primary government.

Based on the application of the above criteria, there are no component units which should be included as part of the financial reporting entity of the Commission.

B. Government-Wide and Fund Financial Statements

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the Commission. These statements include the financial activities of the primary government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

Notes to the Financial Statements

For the Year Ended September 30, 2008

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Commission's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The Commission does not allocate indirect expenses to the various functions. Program revenues include (a) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or program and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the Commission's funds, including fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds and each displayed in a separate column. All remaining governmental are aggregated and reported as nonmajor funds in the Other Governmental Funds' column.

The Commission reports the following major governmental funds:

- ◆ **General Fund** – The general fund is the primary operating fund of the Commission. It is used to account for all financial resources except those required to be accounted for in another fund. The Commission primarily received revenues from collections of property taxes and revenues collected by the State of Alabama and shared with the Commission. Also, accounted for in the general fund is employee health insurance to self-insure the Commission against liability claims.

- ◆ **Public Buildings, Roads and Bridges Fund** – This fund is used to account for the expenditures of special county property taxes for building and maintaining public buildings, roads and bridges.

- ◆ **Reappraisal Fund** – This fund is used to account for the expenditures of special county property taxes for the costs related to the property reappraisal program.

- ◆ **Courthouse and Jail Fund** – This fund is used to account for the expenditures of special county property taxes for maintaining the courthouse and jail.

Notes to the Financial Statements

For the Year Ended September 30, 2008

The Commission reports the following fund types in the Other Governmental Funds' column:

Governmental Fund Types

- ◆ **Special Revenue Funds** – These funds are used to account for the proceeds of specific revenue sources (other than those derived from special assessments or dedicated for major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.
- ◆ **Debt Service Funds** – These funds are used to account for the accumulation of resources for, and the payment of, the Commission's principal and interest on governmental bonds.
- ◆ **Capital Projects Funds** – These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

The Commission reports the following fiduciary fund types:

Fiduciary Fund Types

- ◆ **Private-Purpose Trust Funds** – These funds are used to report all trust agreements under which principal and income benefit individuals, private organizations, or other governments.
- ◆ **Agency Funds** – These funds are used to report assets held by the Commission in a purely custodial capacity. The Commission collects these assets and transfers them to the proper individual, private organizations, or other government.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the Commission gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Notes to the Financial Statements
For the Year Ended September 30, 2008

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues to be available if they are collected within sixty (60) days of the end of the current fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the Commission funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the Commission's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenues.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

D. Assets, Liabilities, and Net Assets/Fund Balances

1. Deposits and Investments

Cash and cash equivalents include cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the County Commission to invest in obligations of the U. S. Treasury and securities of federal agencies and certificates of deposit.

Investments are reported at fair value.

2. Receivables

Sales tax receivables are based on the amounts collected within 60 days after year-end.

Sales, rental, gas, tobacco and lodging taxes receivables consist of taxes that have been paid by consumers in September. These taxes are normally remitted to the Commission within the next 60 days.

Notes to the Financial Statements
For the Year Ended September 30, 2008

Millage rates for property taxes are levied at the first regular meeting of the Commission in February of each year. Property taxes are assessed for property as of October 1 of the preceding year based on the millage rates established by the County Commission. Property taxes are due and payable the following October 1 and are delinquent after December 31. Amounts receivable, net of estimated refunds and estimated uncollectible amounts, are recorded for the property taxes levied in the current year. However, since the amounts are not available to fund current year operations, the revenue is deferred and recognized in the subsequent fiscal year when the taxes are both due and collectible and available to fund operations.

Receivables due from other governments include amounts due from grantors for grants issued for specific programs and capital projects and amounts due from the state and other local governments.

3. Inventories

Inventories are valued at cost. Inventories are recorded as expenditures when consumed rather than when purchased.

4. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

5. Capital Assets

Capital assets, which include property, equipment, and infrastructure assets (roads and bridges), are reported in the applicable governmental activities columns in the government-wide financial statements. Such assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value on the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Major outlays of capital assets and improvements are capitalized as projects are constructed.

Notes to the Financial Statements
For the Year Ended September 30, 2008

Depreciation on all assets is provided on the straight-line basis over the assets estimated useful life. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts) and estimated useful lives of capital assets reported in the government-wide statements are as follows:

	Capitalization Threshold	Estimated Useful Life
Roads	\$250,000	20-50 years
Bridges	\$ 50,000	40 years
Land Improvements – Exhaustible	\$100,000	25 years
Buildings	\$ 50,000	40 years
Equipment and Furniture	\$ 5,000	5 years
Equipment Under Capital Lease	\$ 5,000	5 years

The Commission began retroactively reporting its major general infrastructure assets that were acquired after October 1, 1980 during the fiscal year ended September 30, 2007.

The majority of governmental activities infrastructure assets are roads and bridges. The Association of County Engineers has determined that due to the climate and materials used in road construction, the base of the roads in the county will not deteriorate and therefore should not be depreciated. The remaining part of the roads, the surface, will deteriorate and will be depreciated. The entire costs of bridges in the county will be depreciated.

6. Long-Term Obligations

In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net assets.

In the fund financial statements the face amount of debt issued is reported as other financing sources.

7. Compensated Absences

The Commission has a standard leave policy for its full-time employees as to sick, annual and compensatory leave. The Marshall County Personnel Board establishes rules and regulations governing leaves of absence as provided under Act Number 82-206, Acts of Alabama, page 242.

Notes to the Financial Statements

For the Year Ended September 30, 2008

Annual Leave

All employees accrue annual leave, with pay, based upon total service and may accumulate a maximum of 300 hours of annual leave. Upon termination of employment in good standing, the employees are paid for all unused annual leave accumulated during the anniversary year of such employee termination.

Sick Leave

All employees, after one (1) month of service, are eligible for paid sick leave at the rate of one (1) workday per month of continuous employment. Unused sick leave credits may be accumulated and carried over into successive fiscal years up to 120 days. All unused sick leave is forfeited upon separation and is not compensated to the employee, except in the case of retirement when an employee may be compensated for one-half of his/her accumulated sick leave.

Compensatory Leave

Compensatory leave is provided to permanent full-time employees in accordance with the Fair Labor Standards Act. Employees may accrue compensatory time for hours worked in excess of forty hours per week. Employees may use these hours for additional time off or be paid at one and one-half times the regular rate of pay. Compensatory time must be used within ninety days of accrual.

The Commission uses the termination method to accrue its sick leave liability. Under this method an accrual for earned sick leave is made only to the extent it is probable that the benefits will result in termination payments, rather than be taken as absences due to illness or other contingencies, such as medical appointments and funerals.

As of September 30, 2008, the liability for accrued annual, sick and compensatory leave is approximately \$404,967.91, which includes the current portion of \$40,496.79 and the long-term portion of \$364,471.12.

8. Net Assets/Fund Equity

Net assets are reported on the government-wide financial statements and are required to be classified for accounting and reporting purposes into the following net asset categories:

- ◆ *Invested in Capital Assets, Net of Related Debt* – Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction or improvement of those assets. Any significant unspent related debt proceeds at year-end related to capital assets are not included in this calculation.

Notes to the Financial Statements
For the Year Ended September 30, 2008

- ◆ **Restricted** – Constraints imposed on net assets by external creditors, grantors, contributors, laws or regulations of other governments, or law through constitutional provision or enabling legislation.
- ◆ **Unrestricted** – Net assets that are not subject to externally imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Commission.

Fund equity is reported in the fund financial statements. Governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Note 2 – Stewardship, Compliance, and Accountability

Budgets

Budgets are adopted on a basis of accounting consistent with accounting principles generally accepted in the United States of America (GAAP) for the General Fund, the Public Building, Roads and Bridges Fund and the Courthouse and Jail Fund with the exception of ad valorem taxes, which are budgeted only to the extent expected to be paid rather than on the modified accrual basis of accounting. Capital projects funds adopt project-length budgets. All appropriations lapse at fiscal year-end.

The State Legislature enacted Act Number 616, Acts of Alabama 1976, and then provided further under Act Number 79-466, Acts of Alabama, the statutory basis for county budgeting operations for the Marshall County Commission. Under the terms of these laws, the Commission, at some meeting in September of each year, but in any event not later than the first meeting in October must estimate the Commission's revenues and expenditures and appropriate for the various purposes the respective amounts that are to be used for each purpose. The appropriations must not exceed the total revenues available for appropriation. Expenditures may not legally exceed appropriations.

Budgets may be adjusted during the fiscal year when approved by the County Commission. Any changes must be within the revenues and reserves estimated to be available.

Notes to the Financial Statements
For the Year Ended September 30, 2008

Note 3 – Deposits and Investments

A. Deposits

The custodial credit risk for deposits is the risk that, in the event of a bank failure, the Commission will not be able to cover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The Commission's deposits at year-end were entirely covered by federal depository insurance or by the Security for Alabama Funds Enhancement Program (SAFE Program). The SAFE Program was established by the Alabama Legislature and is governed by the provisions contained in the *Code of Alabama 1975*, Sections 41-14A-1 through 41-14A-14. Under the SAFE Program all public funds are protected through a collateral pool administered by the Alabama State Treasurer's Office. Under this program, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that financial institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC). If the securities pledged fail to produce adequate funds, every institution participating in the pool would share the liability for the remaining balance.

All of the Commission's investments were in certificates of deposit. These certificates of deposit are classified as "Deposits" in order to determine insurance and collateralization. However, they are classified as "Investments" on the financial statements.

B. Cash with Fiscal Agents

The *Code of Alabama 1975*, Section 11-8-11 and Section 11-81-21, authorizes the Commission to invest in obligations of the U. S. Treasury and federal agency securities along with certain pre-refunded public obligations such as bonds or other obligations of any state in the United States of America or any agency, instrumentality or local governmental unit of any such state.

The Commission adopted a Deposit and Investment Policy that requires all deposits to be placed in checking accounts or money market accounts covered by the SAFE Act for investments. Also, the Commission authorized investments in certificates of deposit that are covered by the SAFE Act and United States Treasury Notes.

As of September 30, 2008, the Commission had the following investments in cash held by fiscal agent:

Investment Type	Fair Value	Investment Maturity
Regions Morgan Keegan Select Treasury Money Market Funds	<u>\$414,421.03</u>	Within One Year

Notes to the Financial Statements

For the Year Ended September 30, 2008

The Regions/Morgan Keegan Select Money Market Class A Fund primarily invests in U. S. Treasury Obligations maturing in 397 days or less and in repurchase agreements collateralized by U. S. Treasury Obligations. The Fund is rated AAA by Standard and Poor's.

Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Commission does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increased interest rates.

Credit Risk – State law requires that pre-refunded public obligations, such as any bonds or other obligations of any state of the United States of America or of any agency, instrumentality or local governmental unit of any such state that the Commission invests in be rated in the highest rating category of Standard & Poor's Corporation and Moody's Investors Service, Inc. The Commission does not have a formal investment policy that limits the amount of exposure to credit risk. At September 30, 2008, the Commission's money market fund was rated AAA by Standard & Poor's Corporation.

Custodial Credit Risk – For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to cover the value of its investments or collateral securities that are in the possession of an outside party. The Commission does not have a formal investment policy that limits the amount of securities that can be held by counterparties. The funds transferred to meet the Commission's annual debt service requirements are invested until payments are made.

Note 4 – Receivables

On September 30, 2008, receivables for the Commission's individual major funds, other governmental and fiduciary funds in the aggregate are as follows:

Governmental	General Fund	Public Buildings, Roads and Bridges Fund	Courthouse and Jail Fund	Other Governmental Funds	Total	Fiduciary Funds Private Purpose Trust

Deferred Revenues

Governmental funds report deferred revenues in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At September 30, 2008, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	Unavailable	Unearned
Ad Valorem Property Taxes Receivable	\$7,129,409.93	\$
Ad Valorem Motor Vehicle Taxes Receivable		462,426.07
Unearned Revenues in Reappraisal Fund		365,322.04

Note 6 – Defined Benefit Pension Plan

A. Plan Description

The Commission contributes to the Employees’ Retirement System of Alabama, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for the various state agencies and departments.

Substantially all employees of the Commission are members of the Employees’ Retirement System of Alabama. Membership is mandatory for covered or eligible employees of the Commission. Benefits vest after 10 years of creditable service. Vested employees may retire with full benefits at age 60 or after 25 years of service. Retirement benefits are calculated by two methods with the retiree receiving payment under the method which yields the highest monthly benefit. The methods are (1) Minimum Guaranteed, and (2) Formula, of which the Formula method usually produces the highest monthly benefit. Under this method retirees are allowed 2.0125% of their average final salary (best three of the last ten years) for each year of service. Disability retirement benefits are calculated in the same manner. Pre-retirement death benefits in the amount of the annual salary for the fiscal year preceding death are provided to plan members.

The Employees’ Retirement System was established as of October 1, 1945, under the provisions of Act Number 515, Acts of Alabama 1945, for the purpose of providing retirement allowances and other specified benefits for State employees, State police, and on an elective basis to all cities, counties, towns and quasi-public organizations. The responsibility for general administration and operation of the Employees’ Retirement System is vested in the Board of Control. Benefit provisions are established by the *Code of Alabama 1975*, Sections 36-27-1 through 36-27-103, as amended, Sections 36-27-120 through 36-27-139, as amended, and Sections 36-27B-1 through 36-27B-6. Authority to amend the plan rests with the Legislature of Alabama. However, the Legislature has granted the Commission authority to accept or reject various Cost-Of-Living-Adjustments (COLAs) granted to retirees.

Notes to the Financial Statements
For the Year Ended September 30, 2008

The Retirement Systems of Alabama issues a publicly available financial report that includes financial statements and required supplementary information for the Employees' Retirement System of Alabama. That report may be obtained by writing to The Retirement Systems of Alabama, 135 South Union Street, Montgomery, Alabama 36130-2150.

B. Funding Policy

Employees of the Commission, with the exception of full-time law enforcement officers, are required by statute to contribute 5 percent of their salary to the Employees' Retirement System. As of January 1, 2001, full-time law enforcement officers are required by statute to contribute 6 percent of their salary to the Employees' Retirement System. The Commission is required to contribute the remaining amounts necessary to fund the actuarially determined contributions to ensure sufficient assets will be available to pay benefits when due. The contribution requirements of the Commission are established by the Employees' Retirement System based on annual actuarial valuations. The employer's contribution rate for the year ended September 30, 2008 was 7.5% percent based on the actuarial valuation performed as of September 30, 2006.

C. Annual Pension Cost

For the year ended September 30, 2008, the Commission's annual pension cost of \$453,937.14 was equal to the Commission's required and actual contribution. The required contribution was determined using the "entry age normal" method. The actuarial assumptions as of September 30, 2008, the latest actuarial valuation date, were: (a) 8 percent investment rate of return on present and future assets, and (b) projected salary increases ranging from 7.75 percent at age 20 to 4.61 percent at age 65. Both (a) and (b) include an inflation component of 4.5 percent. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period as of September 30, 2008 was 20 years.

The following is three-year trend information for the Commission:

Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
09/30/2008	\$453,937	100%	\$0
09/30/2007	\$402,745	100%	\$0
09/30/2006	\$355,136	100%	\$0

Notes to the Financial Statements

For the Year Ended September 30, 2008

D. Funded Status and Funding Progress

As of September 30, 2007, the most recent actuarial valuation date, the plan was 87.7 percent funded. The actuarial accrued liability for benefits was \$17,849,820 and the actuarial value of assets was \$15,658,115, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,191,705. The covered payroll (annual payroll of active employees covered by the plan) was \$6,174,630, and the ratio of the UAAL to the covered payroll was 35.5 percent.

The Schedule of Funding Progress, presented as RSI following the Notes to the Financial Statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Note 7 – Other Postemployment Benefits (OPEB)

On October 27, 1986, the Commission approved a motion to provide health insurance for all retired employees and elected officials and to pay the entire premium out of county funds. Also, Act Number 97-506, Acts of Alabama, page 875, allows the Commission to pay life insurance premiums for retirees in the same manner as it currently pays for the active employees from any funds in the County treasury.

The Commission's contributions are on a pay-as-you-go basis, and for the year ended September 30, 2008, the Commission's expenditures to cover approximately 74 participants totaled \$547,815.00 for health insurance and \$4,037.35 for life insurance.

Note 8 – Contingent Liabilities

Under the provisions of Act Number 79-357, Acts of Alabama, a sheriff is eligible to become a supernumerary sheriff upon retirement after sixteen (16) years of service credit as a law enforcement officer, twelve (12) of which have been as a sheriff, and who has attained the age of fifty-five (55) years. The Marshall County Sheriff, who elected to participate in this retirement plan, made monthly contributions out of his salary as required by law. The Commission has a responsibility to properly manage these funds in order to provide the necessary monthly payments to the Sheriff when he retires. Should the Sheriff decide to withdraw from the plan for whatever reason the Commission is obligated to refund the Sheriff's total contribution which at September 30, 2008 amounted to \$6,965.71.

The Commission is a defendant in various lawsuits. Management is unable to predict the outcome of the litigation but believes it has strong grounds upon which to defend these proceedings. Accordingly, no provisions for possible loss, if any, are included in the financial statements.

Notes to the Financial Statements
For the Year Ended September 30, 2008

Note 9 – Payables

On September 30, 2008, payables for the Commission’s individual major funds and other governmental funds in the aggregate are as follows:

	Vendors	Due from Other Governments	Total
<u>Governmental Funds:</u>			
General Fund	\$ 34,988.80	\$593,218.13	\$628,206.93

	Vendors
<u>Fiduciary Funds:</u>	
Private-Purpose Trust Funds	<u>\$16,576.70</u>

Note 10 – Lease Obligations

Capital Leases

The Commission is obligated under certain leases accounted for as capital leases. Assets under capital leases totaled \$608,239.22 for governmental activities at September 30, 2008. If the Commission completes the lease payments according to the schedules below, which is the stated intent of the Commission, ownership of the leased equipment will pass to the Commission. The lease purchase contracts give the Commission the right to cancel the lease with 30 days written notice and payment of a pro rata share of the current year’s lease payments. The following is a schedule of future minimum lease payments under capital leases, together with the net present value of the minimum lease payments as of September 30, 2008.

Fiscal Year Ending	Governmental Activities
September 30, 2009	\$185,413.17
2010	146,326.30
2011	59,206.05
2012	21,284.19
Total Minimum Lease Payments	<u>412,229.71</u>
Less: Amount Representing Interest	(19,925.64)
Present Value of Net Minimum Lease Payments	<u>\$392,304.07</u>

Notes to the Financial Statements

For the Year Ended September 30, 2008

Operating Leases

The Commission is obligated under certain leases accounted for as operating leases. Operating leases do not give rise to property rights or lease obligations, and therefore the results of the lease agreements are not reflected as part of the Commission's capital assets. During the fiscal year ended September 30, 2008, total costs paid by the Commission were \$28,838.99 for operating leases. The payments remaining for the leases having initial or remaining noncancelable lease terms in excess of one year at September 30, 2008, are noted below.

Fiscal Year Ending	Equipment
2009	\$16,084.99
2010	4,228.33
2011	1,510.90
Total	<u>\$21,824.22</u>

Note 11 – Long-Term Debt

In December 2001, the Commission issued General Obligation Warrants, Series 2001, for capital improvements and to refund the Commission's General Obligation Warrants, Series 1990-A and 1990-B, and its General Obligation Refunding Warrants, Series 1993.

In June 2003, the Commission issued General Obligation Warrants/U.S.D.A. Loan for the purchase of a building to provide a public daycare center. On June 11, 2003, a lease agreement was entered into between the Commission and the Childcare Resource Network, Inc., for rental payments on the building. A lease receivable of \$532,553.22 is reflected in the financial statements at September 30, 2008. This amount is due in payable in excess of one year.

The following is a summary of long-term debt transactions for the Commission for the year ended September 30, 2008:

	Debt Outstanding 10/01/2007	Issued/ Increased	Repaid/ Decreased	Debt Outstanding 09/30/2008	Amounts Due Within One Year

Notes to the Financial Statements
For the Year Ended September 30, 2008

Payments on the warrants payable were made from the Debt Service Funds. These payments were made from transfers from the Public Buildings, Roads and Bridges Fund. In addition, the long-term notes payable are paid from the Public Buildings, Roads and Bridges Fund. The capital lease contracts payable are paid from the General Fund and from the following Special Revenue Funds: the Gasoline Tax Fund and the Public Buildings, Roads and Bridges Fund.

The compensated absences liability will be liquidated by several of the Commission's governmental funds. In the past, approximately 59% has been paid by the General Fund, 25% by the Gasoline Tax Special Revenue Fund, and the remainder by the other governmental funds.

The following is a schedule of debt service requirements to maturity:

Fiscal Year Ending	Governmental Activities			
	General Obligation Warrants, Series 2001		General Obligation Warrants/U.S.D.A. Loan

Note 12 – Conduit Debt Obligations

On August 8, 1994, the Commission issued its \$10,000,000.00 Special Obligation School Refunding Warrants to advance refund a portion of the Commission's outstanding Limited Obligation School Warrants, Series 1991, and to fund projects for capital improvements of certain public school facilities. The Warrants are secured by a lease agreement dated August 1, 1994, between the Commission and the Marshall County Board of Education and are payable solely from payments received under the lease agreement. The Board of Education has an irrevocable letter of credit with the bank to make payments on the Warrants from pledged ad valorem tax proceeds, sales tax proceeds, and TVA payments-in-lieu of taxes. Upon repayment of the Warrants, ownership of the projects transfers to the Board of Education. The Commission is not obligated in any manner for repayment of the Warrants. Accordingly, the Warrants are not reported as liabilities in the accompanying financial statements.

Note 13 – Risk Management

The Commission is exposed to various risks of loss related to torts; theft of; damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Commission has general liability insurance through the Association of County Commissions of Alabama (ACCA) Liability Self Insurance Fund, a public entity risk pool. The Fund is self-sustaining through member contributions. The Commission pays an annual premium based on the Commission's individual claims experience and the experience of the Fund as a whole. Coverage is provided up to \$500,000 per claim for a maximum total coverage of \$2,000,000 and unlimited defense costs.

Notes to the Financial Statements
For the Year Ended September 30, 2008

The Commission has workers' compensation insurance through the Association of County Commissions of Alabama (ACCA) Workers' Compensation Self Insurance Fund, a public entity risk pool. Premiums are based on a rate per \$100 of remuneration for each class of employee, which is adjusted by an experience modifier for the individual county less a 15% discount. At year-end, pool participants receive refunds of unused premiums and the related investment earnings.

The Commission purchases commercial insurance for its other risks of loss, including property and casualty insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The Commission is self insured with regard to employee health insurance. The Commission purchases insurance for claims in excess of the aggregate stop loss basis. The aggregate stop loss basis is determined annually based on the Commission's claim experience. An estimate of the claims liability is reported in the general fund, and is based on past experience.

The schedule below presents the changes in claims liabilities for the past three years for the employee health insurance:

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year-End
2007-2008	\$191,817.15	\$2,167,119.00	\$2,231,236.15	\$127,700.00

Note 15 – Related Organizations

A majority of the members of the Board of the Marshall County Health Care Authority are appointed by the Marshall County Commission. The Commission, however, is not financially accountable, because it does not impose its will and have a financial benefit or burden relationship, for this agency and this agency is not considered part of the Commission's financial reporting entity. This agency is considered a related organization of the County Commission.

***Schedule of Revenues, Expenditures and Changes in Fund Balances
Budget and Actual - General Fund
For the Year Ended September 30, 2008***

Explanation of differences:

- (1) The Commission recognizes motor vehicle ad valorem taxes as they are received without regard to when they are earned.

Net Decrease in Fund Balance - Budget to GAAP

- (2) The amount reported as "fund balance" on the budgetary basis of accounting derives from the basis of accounting used in preparing the Commission's budget. This amount differs from the fund balance reported in the Statement of Revenues, Expenditures and Changes in Fund Balances because of the cumulative effect of transactions such as those described above.

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Marshall County Commission (the "Commission") as of and for the year ended September 30, 2008, which collectively comprise the Commission's basic financial statements and have issued our report thereon dated November 5, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Commission's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purposes of expressing an opinion on the effectiveness of the Commission's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

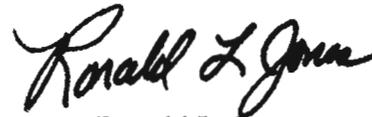

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

***Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of
Financial Statements Performed in Accordance With
Government Auditing Standards***

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under ***Government Auditing Standards***.

This report is intended solely for the information and use of management, members of the Commission, the Chairman, the County Administrator and others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Compliance

We have audited the compliance of Marshall County Commission (the “Commission”) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended September 30, 2008. The Commission’s major federal programs are identified in the Summary of Examiner’s Results Section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the Commission’s management. Our responsibility is to express an opinion on the Commission’s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Commission’s compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Commission’s compliance with those requirements.

In our opinion, the Commission complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended September 30, 2008.

Internal Control Over Compliance

The management of the Commission is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Commission’s internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Commission’s internal control over compliance.

Report on Compliance With Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Our consideration of the internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in the entity's internal control that might be significant deficiencies or material weakness as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies and others that we consider to be material weaknesses.

A control deficiency in a entity's internal control over compliance exists when the design and operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiency in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as item 2008-1 to be a significant deficiency.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control. We did not consider the deficiency described in the accompanying Schedule of Findings and Questioned Costs to be a material weakness.

The Marshall County Commission's response to the finding identified in our audit is described in the accompanying Auditee Response/Corrective Action Plan. We did not audit the Marshall County Commission's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, members of the Commission, the County Administrator and others within the entity, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Dear Sir:

Corrective Action Plan
For the Year Ended September 30, 2008

As required by the Office of Management and Budget (OMB) Circular No. A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, Section .315 (c), the Marshall County Commission has prepared and hereby submits the following Corrective Action Plan for the findings included in the Schedule of Findings and Questioned Costs for the year ended September 30, 2008.

Finding
Ref

No. Corrective Action Plan Details

2008-1 **Finding #2008-1:** OMB Circular A-87, Section 225.15, requires for a cost to be allowed it must be necessary and reasonable for proper and efficient performance and administration of federal awards. Meals were paid for with federal funds for advisory council meetings and other purposes for the Retired and Senior Volunteer Program. These costs do not appear to meet the required criteria. Adequate procedures were not in place to prevent these costs from being billed to the program.

Response: Procedures have been put into place to ensure that costs which are not in compliance with OMB Circular A-87, Section 225.25 will not be charged to a federal program.

Sincerely,

A handwritten signature in blue ink that reads "Douglas D. Fleming".
