

*** * * * PUBLIC NOTICE * * * ***

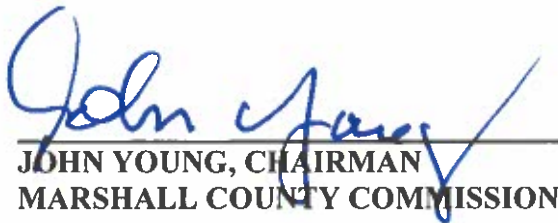

Please be advised that the Department of Homeland Security's Federal Emergency Management Agency (FEMA) has issued a preliminary Flood Insurance Rate Map (FIRM), and where applicable, a Flood Insurance Study (FIS) Report, reflecting proposed flood hazard determinations within Marshall County, Alabama and Incorporated Areas. These flood hazard determinations may include the addition or modification of Base Flood Elevations, base flood depths, Special Flood Hazard Area boundaries or zone designations or the regulatory floodway. **There is a 90-day appeal period which will end on January 26, 2027.** Any owner or lessee of real property in our community who believes their property rights will be adversely affected by the proposed flood hazard determinations may submit an appeal in writing to the Marshall County Engineer. **Please know that the sole basis for such appeals is the possession of knowledge or information indicating that the proposed flood hazard is scientifically or technically incorrect.** Please submit any appeals in writing to:

**Michael D. Knop, P.E.
Marshall County Engineer
424 Blount Ave. Suite A337
Guntersville, AL 35976**

FEMA has posted digital copies of these revised FIRM and FIS report materials to the following websites:
